ASCENCIA BUSINESS SCHOOL

Ascencia Business School, Business School with sandwich courses, was created by business leaders to renew management education around three main themes:

Entrepreneurship: Promotes business creation to young people of all backgrounds and encourages initiative in every company regardless of its size.

The management of the web: Sets the digital technologies at the heart of all formations from all areas of specialization.

The culture of responsibility: To give future managers the ability to act as a responsible person with a philosophical and anthropological curricula integrated into all streams.

An MBA in Healthcare Management puts you in a better position to move into managerial and senior leadership roles in :

- Biotech health services
- Health care consulting firms
- Insurance organizations
- Medical Laboratories
- Government agencies
- Health maintenance organizations
- Hospitals, clinics, or medical offices
- Pharmaceutical companies

Accreditation

This program is recognized by the French Ministry of Labor as Certified Qualification of level I within the National Directory of Professional Certification (RNCP).

- RNCP Certification

Rankings in France

MBA-HEALTHCARE MANAGEMENT

The Ascencia Business School MBA in Healthcare Management program provides an in-depth examination of global business issues ranging from economics to cross-cultural leadership.

It equips you with skills and knowledge for a management career in the global healthcare sector. The Ascencia Business School MBA in Healthcare Management program is a direct-entry program requiring no previous professional or work experience.

Now, with more and more organizations trying to manage costs and keep up with legislation changes, the demand for healthcare management professionals is on the rise. Because management in the health sector is unique, you can increase your chances of getting hired as a manager or administrator with hospitals, clinics, practices, or other health agencies. The new MBA Healthcare Management concentration will get your foot in the door of the health care management sector, you will enjoy job stability and a lot of growth potential as you gain experience.
